

Amendments to the Specification:

Replace the paragraph beginning at page 60, line 17 with the following amended paragraph:

~~genbank (?) accession no AL136819 and/or SPTREMBL : Q9H0F3~~ This is consistent with the staining pattern of KLP67A in *Drosophila* cells. This also demonstrates a type of cell that can be used to assay test compounds for their ability to alter KIF18A localization.
